

# Sitewatch<sup>®</sup> Anywhere

## Remote Monitoring Systems for Compactors, Tippers and Balers.

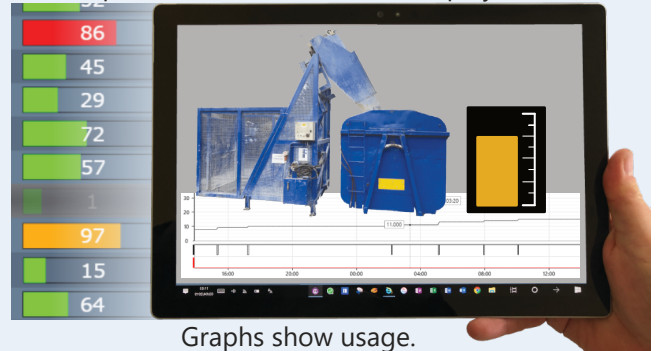

### Cloud based Solutions for all size of Waste Management Application.

**Optimise** your **logistics** by only collecting skips when they are close to their maximum legal weight.

Our **low cost** monitoring and control system can be **easily retro fitted** to any compactor, tipper or baler.

Bin tip count, animated mimics display fullness.

#### Full Skip Lockout

Automated control disables tip operation when full.

#### Collection Optimisation

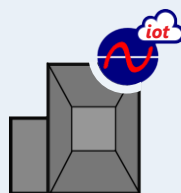

Automated analysis predicts date for skip collections.

#### No Clean Up Costs

Save money and maintain a positive working relationship with clients.

#### No Overloading Penalties

Avoid driver and business prosecutions, fines.

.. for **Live** and **continuous** monitoring via the cloud on any device via a secure application created for you.

Receive **Automated Email** and **SMS** alerts.

### Compactor calibration from your desk.

There is no need for expensive load-cells with complex mounts that require regular calibration.

**Sitewatch** can determine skip fullness using existing parameters found within a compactor's electrical control panel. The **Sitewatch** application allows adjustment of collection limits, enabling you to fine tune the process based on your customers' typical behaviour.
